

of Duke University who is studying chemical changes and how they have been recent advances but "there is a little bit too much enthusiasm about this thing."

Dr. Beard said he and others involved in studies of the virus-cancer relation once were scientific outcasts. Now the pendulum has swung the other way and caution is called for, he said.

The panel members reported research showing the presence of identifiable viruses—ribonucleic bundles of life matter now as DNA or RNA in a protein envelope—in connection with leukemia and certain other types of cancer in animals and humans.

The evidence is that the viruses are present in all or most people in varying degrees and are triggered to produce cancers by other factors such as inheritance or a disorder that upsets the body chemistry.

STUDY ENCOURAGING

Dr. Gershon L. Cohen said the study of viruses is the most encouraging avenue in understanding cancer. Discoveries on the structure and action of DNA and RNA—the virus centre—"are probably more significant if less appreciated by the public, than the unlocking of atomic energy."

Couple Wins Ski Holiday In Kelowna

Long Festivities End at Weekend

Most of the holiday festivities have ended with the closing of the New Year's Eve party and the beginning of the New Year's celebration. The city's longest running festival, the New Year's Eve party, which began in 1954, ended at midnight with a fireworks display. The party was held at the city's main hall and was attended by thousands of people. The New Year's celebration, which began on January 1, was held at the city's main hall and was attended by thousands of people. The celebration included a parade, a fireworks display, and a variety of other activities. Goalie Loaned To Edmonton

ST. CATHARINES, Ont. (CP)—Goalie Bob Taylor, who played the first 11 games this season with St. Catharines Black Hawks of the Ontario Hockey Association Junior A division, has been loaned to Edmonton Oil Kings, 1961 Memorial Cup finalists, for the remainder of the season.

ST. CATHARINES general manager Ken Campbell said Taylor, 19, a native of Calgary, was sent West to make room for right winger Frank Golemboski, another Canadian, who will join the Hawks after a five-game trial with St. Louis of the Central Professional League.

Ontario Junior teams are allowed only one branch-to-branch transfer and Taylor had to return to his original branch in the West before Golemboski's certificate could be sanctioned by the OHA.

Bob Groh, spare goalie the last two seasons, will become the Hawks' regular netminder.

UBCM Director Sends Outline Of Change In Winter Works Plan

VERNON — T. H. B. Adams, executive director of the UBCM, has sent a letter to all member municipalities on the subject of the Winter Works Program.

Mr. Adams states "You will be how have received outline from the Department of Municipal Affairs of the increase in provincial participation in the winter works program. This change goes part way to meet the increase in the cost of the winter works program. The UBCM has been asked to make a study of the program and to make a report to the Department of Municipal Affairs by the end of the year."

Mr. Adams continues "The Department of Municipal Affairs has been asked to make a study of the program and to make a report to the Department of Municipal Affairs by the end of the year."

Mr. Adams says "The government is making renewed efforts to take the program of the long term planning of the winter works program. The UBCM has been asked to make a study of the program and to make a report to the Department of Municipal Affairs by the end of the year."

DAILY CRYPTOQUOTE — Here's how to work it:
A XYDLBAAXR
LONG FELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

The Bidding:
South West North East
1 ♠ 1 NT Pass

Opening lead — Jack of diamonds

The term "endplay" is a misnomer in bridge. It is a play that need not occur near the end of a hand but may well take place in the middle or even at the beginning of a hand. The endplay is one of the best methods available to declarer for gaining a trick he might otherwise have to lose. It occurs when declarer throws a defender into the lead at the right moment and thereby forces that defender to make a trick-losing return. Sometimes declarer must lay the groundwork for the eventual South to two spade losers.

YOUR HOROSCOPE

FOR TOMORROW
Excellent planetary influences bring fine opportunities now. It is a day in which to put over big projects and to impress superiors. Personal relationships have stellar blessing, too, along with romance and creative interests.
An all-around good day!

FOR THE BIRTHDAY
If tomorrow is your birthday, your horoscope indicates that you can achieve a great deal within the next 12 months. As of this week, you have entered a fine 3-month cycle where financial matters are concerned, and still further advances are promised in early July, September, late October and late November.

This does not mean that you should go overboard in spending. On the contrary, it will be important to avoid extravagance and risky speculation—especially during the first half of April, in mid-May and early June.

Late April, late October and early November will be excellent for job advancement and/or business expansion.

January, May, late June and late July will be excellent periods for romance and, if you are single, there is the possibility of a sudden marriage during any one of these months. Good opportunities for travel and stimulating social activities are prearranged for the next month, in late July, early September and December.

A child born on this day will be endowed with the qualities of leadership and would make an excellent executive or teacher.

EVER HAPPEN TO YOU?
